ABDULREHMAN JAFER

WEB DEVELOPER

SUMMARY

HI, I am Abdulrehman and I'm 19 years old. I am doing BSCS from Virtual University of Pakistan and have 1+ years of coding experience and counting. I have learnt and built many UIs using my frontend skills which includes HTML, CSS, JavaScript, Tailwind, React and working more on learning Data Structure and Algorithms. And I have also learned the core concepts of backend development and I have learned about REST API, No-SQL database such as MongoDB and JavaScript backend framework Express. And with the help of these skills I have also made my MERN blogging app in which you can sign up for an account and log in and if you are logged in then you can create new blogs and read other people blogs.
